01 ACKNOWLEDGEMENT

Population explosion, poverty, illiteracy etc. always hinders the growth of an economy, The COVID-19 pandemic has increased the intensity of the problem. Not only in India even in advanced countries, in India's unemployment rate rose to its highest level since 1991 & during 2020 as COVID-19 caused a halt to economy.

Career is a way of making one's livelihood. Self-employment is also a career because one may employ oneself in business or in service activities and earn one's livelihood. With growing unemployment and lack of adequate job opportunities, self-employment has become very significant.

Self-employment & Entrepreneurship drives an economic growth and creates new jobs. encourages innovation by bringing new ideas, products, and services to the market and contributes to social change by developing products or services that reduce people's dependence on outdated technologies. In such a scenario, the need for promoting self-employment for the unemployed rural youth, particularly those below the poverty line, and periodic skill up gradation to keep them abreast of latest technologies, need not be overstated. Once trained appropriately, the youth will launch profitable micro- enterprises and enhance their own standards of living and thereby contribute to the overall national economy. Entrepreneurship Development is a continuous and challenging process and is directly associated with the economic development of the country by Self-employment ensures faster economic growth than wage employment

The pioneering efforts of RUDSETI in the field of Entrepreneurship Development, launched in 1982, under the visionary and able leadership of Padmavibhushan Dr. D. Veerendra Heggade, jointly with Syndicate Bank and Canara Bank have provided an institutional framework for Entrepreneurship Development.
