01 ACKNOWLEDGEMENT

Population explosion, poverty, illiteracy etc. always hinders the growth of an economy, The COVID-19 pandemic has increased the intensity of the problem. In India's unemployment rate rose to its highest level since 1991 during 2020 as COVID-19 caused a halt to economy.

Career is a way of making one's livelihood. Self-employment is also a career because one may employ oneself in business or in service activities and earn one's livelihood. With growing unemployment and lack of adequate job opportunities, self-employment has become very significant.

Entrepreneurship drives economic growth and creates new job. Encourages innovation by bringing new ideas, products, and services to the market. Contributes to social change by developing products or services that reduce people's dependence on outdated technologies

Also non-availability of adequate employment opportunities in the organized & unorganized sectors is one of the serious challenges in the country is facing. In such a scenario, placement linked training and skill-development initiative for poor rural youth has had a significant economic impact on livelihoods of the beneficiaries by increasing employment opportunities as well as augmenting income levels, particularly those below the poverty line, and periodic skill up gradation to keep them abreast of latest technologies, need not be overstated. Entrepreneurship Development is a continuous and challenging process and is directly associated with the economic development of the country by Self-employment ensures faster economic growth than wage employment.

The pioneering efforts of RUDSETI in the field of Entrepreneurship Development, launched in 1982, under the visionary and able leadership of Padmavibhushan Dr. D. Veerendra Heggade, jointly with Syndicate Bank and Canara Bank have provided an institutional framework for Entrepreneurship Development.
