A brief report on the Institute

India being a country of young population has tremendous opportunity to develop faster if the human resources are utilized properly. There are number of unemployed youth, who are capable of doing anything. But due to lack of opportunity or guidance they are lying idle. This tremendous waste of human resources and mismatch of potentiality with productive deployment has baffled the planners and administrators. All these clearly indicate the need for promoting self – employment entrepreneurial ventures among the unemployed youth. In order to find out an answer to this social quandary, our visionary leader, Padma vibhushan Dr.D.Veerendra Heggade, started RUDSETI (Rural Development and Self Employment Training Institute) along with the hearty support rendered by two of the leading nationalized Banks ; Syndicate Bank and Canara Bank . He started the movement at a place called Ujire of Dakshina Kannada district of Karnataka, in the year 1982. At present there are 27 branches of RUDSETI in the country and Nagaon is the youngest one established on 20th February 2013..

We the Nagaon unit of RUDSET Institute has successfully completed 9 years and has now become a worth emulating model in the district and played an important role in channelizing youth power through identifying and developing their hidden talents, competencies, traits and transforming them into responsible citizens of the nation by its unique interventions.

RUDSETI provides short duration intensive training to unemployed youths free of cost with free food and accommodation. Practical orientation and rigorous training programmers with knowledgeable faculty are some of the distinct features of RUDSETI training. Apart from hard skill we also impart soft skill focusing on inherent strength, creativity, self confidence, discipline and art of living.

Vision Statement:

1. RUDSETI considers the youth as valuable human resource of the country to exploit the scope of availability in various avenues by launching the lucrative micro enterprise.
2. To transform youth into productive assets by short duration interventions and long duration escort service.

Objective of the Institute :

1. To identify, orient, motivate, train and assist the rural youth to take up self employment/ wage employment ventures as an alternative career.
2. To take up research and development activities in Entrepreneurship and Rural Development etc.
3. To train village level workers to work in rural development.
4. To provide counseling and project consultancy.

Management of the Institute :

The Board of Governors consisting of Chairman and Managing Directors of sponsor bank and the top executives of sponsors organizations with Dr. D.Veerendra Heggade as the President is the apex body which evolves strategies and takes policy decisions. The Governing Council consisting of top executives from the sponsor organizations is another apex level body which meets periodically to monitor the progress of all the units and advise the units of RUDSETI. The Executive Director, a deputed officer from the sponsor bank looks after the day to day functioning of all the units and acts as a link between the sponsors and the units. Each RUDSETI is assisted by District Local RUDSETI Advisory Committee (DLRAC) an advisory body with the representatives of sponsor organizations, Government officials and eminent personalities. It periodically reviews and monitors the progress of RUDSETI. Each unit is Headed by one Director deputed from Canara Bank.

Programme structure:

We can divide our programme into Pre training, Training and Post training. In case of pre training we do EAP (Entrepreneurship Awareness Programme) for creating awareness among the unemployed rural youth for self Employment opportunities. EAPs are conducted in rural areas in collaborations with local agencies like Bank, Panchayat office, Block Development office, NGOs etc. Selection, orientation and application generation are done by EAP.

Follow - up

The post training follow-up is the most important feature of RUDSETI model of training. It gives maximum importance to this function and we spare considerable time to follow-up the trainees for a maximum period of two years after the training.

During the year, RUDSET Institute has conducted village, panchayat office, block office level and individual follow-up programme to redress the grievance of entrepreneurs. During this process we provide suggestions with suitable counseling where needed. It serves as a valuable feedback to assess the impact of our training. Through the follow-up system we can measure the post training progress of the trainees and understand the problems faced by them. Sometimes, we visit the place/unit of trainees more than once in a year if it is required.

During the year 2021-22, RUDSETI, Nagaon has organized 68 follow up meets and met 695 trainees. The details data are furnished below:

Share of weaker sections

India is a developing country. We are growing ourselves socially & economically day by day. But still there are some communities, called weaker sections in the society who are neglected & deprived from various types of benefits/opportunities. We have to hold their hands and support them in all round development & RUDSETI is doing the same. We are imparting skill as well as entrepreneurship development training to all the weaker sections of our country.

A large number of unemployed youth from the weaker sections of Nagaon District in Assam are not privileged to have access to higher / professional education and are driven to despair for not finding a job in Govt./Private Sector. Gradually it was realized that these distressed youths are attracted towards different anti-social activities for their livelihood. This is a fact beyond any apprehension that unemployment has brought social unrest and if not handled properly can lead to extremism. This is a sheer wastage of human resources that could have been deployed properly for the betterment of the youth mass in particular and the society as a whole.

During the year 2021-22 RUDSET Institute, Nagaon has arranged different self employment training programme and trained 354 trainees from various sections satisfactorily with 315 women trainees. Among the trainees there are Scheduled Caste, Schedule Tribe, Backward Class, Minorities etc as detailed below.

The detailed data are given below:

Sl. No.	Weaker section	During last year	During this year	Since inception
